Anuara Khatun and it was revealed that Anuara Khatun also didn't file any complaint either on oral or in writing, at West Agartala PS against Amal Das during her visit to West Agartala Women PS.

Report of the DGP shows that on 28.01.2025 afternoon, Lovely Begam went to the house Rubi Begam for lunch. Some local residents saw her at Rubi Begam's house and they went there and enquired about her mother and they also assaulted her with fists and blows and they told her that like her two sister siblings, they would send her also to home as she had left them alone at home and they were bitten by a dog. Lovely Begam managed to escape from the spot and informed her mother about the incident.

On that day Anuara Begam took her daughter to IGM hospital for medical treatment with the alleged history of assault at around 2:00 pm on the same day. In the prescription dated 28.012025 at about 07:00 pm the attending Medical Officer noted that no external injury/marks were found and advised for X-ray and orthopedic consultation. During inquiry, complainant stated that she didn't follow up the suggested X-ray and orthopedic consultation.

During inquiry it appears that the fact

disclosed by Lovely Begam was not true.

Since, the complainant does not appear before this Commission and also doesn't submit her response against report of the DGP Tripura, the Commission considers that the complainant didn't submit her response, since her allegations have got no foundation.

This being the position, this Commission didn't find any violation of her Human Rights by Police i.e, O/C, women P.S. and accordingly, no cognizance can be taken on the allegations of the complaint and the complaint of the complainant is thus, disposed of being devoid of merit.
